NODE REPL → Loop   [~~Bo~~ It is JS runtime env]

Read Evaluate Point
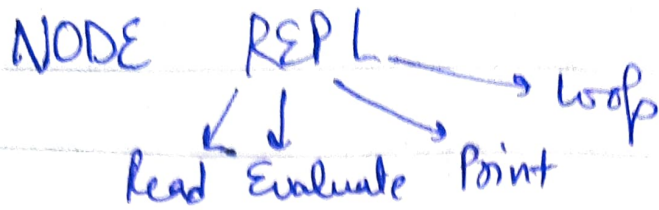

\# window & this which has all the global vars.
is given to us by browser not by V8 engine

* IN NODEJS → this X   window X self X frames X

only "global"

⟹ "global" is one of the SUPER POWERS
↳ gives us access to cool stuff
↳ ~~set~~ Timeout.
↳ set Interval.

if clg(this) → then { }.

→ As there was so much confusion regarding this, window
self, frames, global.

↳ so, JS came up with "globalThis"
